CONNECTED SAFETY INTELLIGENCE FOR LAW ENFORCEMENT OPERATIONS

Saegic brings together video, evidence, enforcement technologies, AI-powered intelligence, and operational data to help agencies improve situational awareness, accelerate investigations, and make confident decisions in critical moments.

SEE MORE: IMPROVE SITUATIONAL AWARENESS AND OFFICER SAFETY

Automated License Plate Recognition (ALPR)

Automatically identify hotlisted vehicles and aggregate plat reads in the cloud.

In-car Video

Reliable, multi-camera HD capture with on-board AI and body cam integration.

Cellular-Connected Body Cameras

Provide continuous visibility from the field with full-shift recording and secure LTE connectivity.

Interview Room Solutions

Capture, manage, and preserve interviews with confidence.

Real-Time Awareness

Combine live video, AVL, and location intelligence to maintain operational awareness during critical incidents.

RESPOND FASTER: ACCESS INFORMATION AND ACT QUICKLY

FOCUS View App

Manage and view evidence from your body camera on a laptop or mobile phone.

Holster Activation

Trigger your body camera with bluetooth via a holster sensor.

Live Video Streaming

See what is happening in real time to improve incident coordination and response.

Video Intelligence

Turn raw video into actionable evidence quickly and accurately with AI-powered transcription, translation, and report-ready summaries.

REDUCE RISK: AUTOMATE ENFORCEMENT AND EXTEND AGENCY CAPACITY

Stop-Arm Violation Enforcement (SAVES)

Automatically identifies stop-arm violations and compile a complete evidence package ready for review.

- Improves student safety
- Reduces manual enforcement demands
- Strengthens collaboration between schools and law enforcement

Automated License Plate Recognition (ALPR)

Increase investigative efficiency and officer awareness through automated plate recognition.

- Real-time hotlist notifications
- Passive intelligence gathering
- Rapid deployment and scalability

OPERATE WITH CONFIDENCE: IMPROVE EVIDENCE INTEGRITY, TRANSPARENCY AND DECISION-MAKING

Digital Evidence Management System

Collect, manage, and secure evidence in one platform.

Cloud Sharing

Securely share digital evidence with full auditing and lifecycle management.

WHAT'S NEW

AI-Powered Intelligence for Faster Decisions

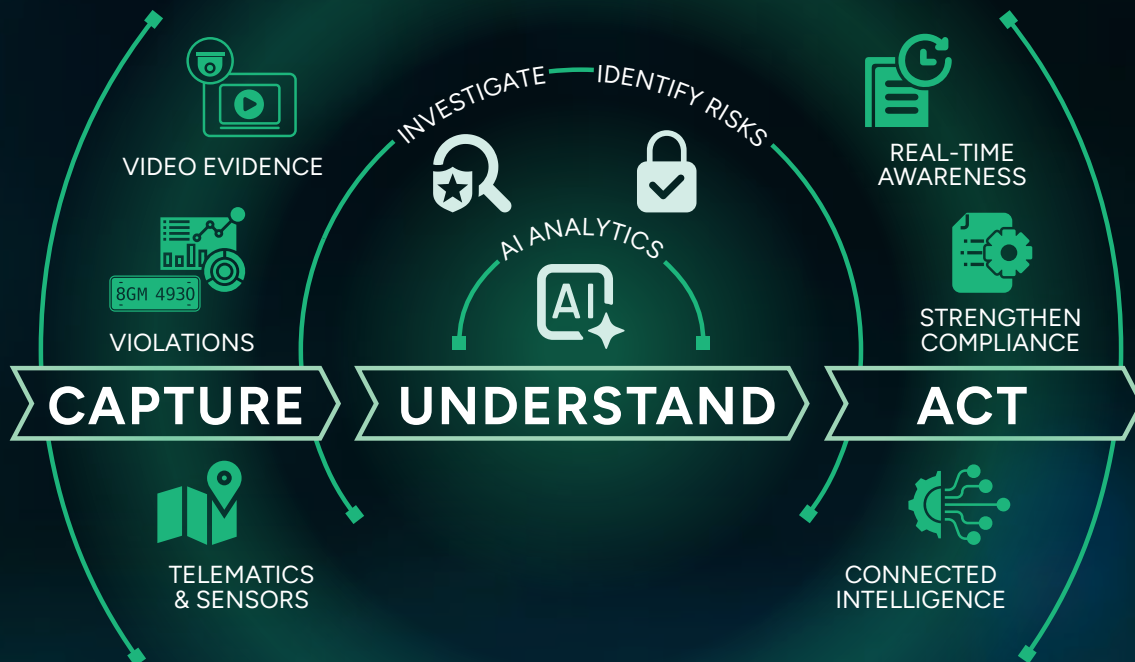

Turn video, location data, and operational information into actionable intelligence that helps agencies identify critical events, understand situations faster, and make confident decisions.

Video Intelligence

AI-powered transcription, translation, and report-ready summaries help teams move from evidence collection to action more quickly.

Real-Time Awareness

Live video, AVL, and connected operational data deliver the visibility needed to coordinate resources and respond effectively.
