Every Stop Should Be Safe.
Every Student Protected.

THE SCHOOL BUS SAFETY TECHNOLOGY YOU TRUST.
NOW CONNECTED BY SAEGIC.

Saegic | SEON

CONNECTED SAFETY INTELLIGENCE FOR SCHOOL TRANSPORTATION

Saegic connects student visibility, onboard video, vehicle data, driver performance, and stop-arm enforcement workflows into one clear view, so transportation teams can make faster decisions with greater confidence across every route.

SEE MORE: IMPROVE VISIBILITY & AWARENESS

Surveillance Systems
Capture clear onboard and exterior video to resolve incidents quickly.

Danger Zone Monitoring
Give drivers a 360-degree view around the bus to reduce blind spots.

Live GPS Tracking
Know where buses are so teams can respond with better context.

RESPOND FASTER:
ACCESS INFORMATION AND ACT QUICKLY

Automatic Video Upload
Move critical video to the cloud without retrieving media from the bus.

Live Video Streaming
See what's happening onboard as events unfold.

Wireless Connectivity
Keep buses and transportation teams connected to critical information.

REDUCE RISK: PROTECT STUDENTS INSIDE AND OUTSIDE THE BUS

Predictive Stop Arm
Alert students and drivers when an unsafe pass-by is detected.

Illuminated Stop Arms
Increase bus visibility while students load and unload.

Driver Behavior & Coaching
Use event insight to address distracted driving and reinforce safer habits.

Driver Alert Sign
DO NOT PASS

Warn motorists the bus is slowing or stopping to increase awareness in student loading zones.

Stop Arms
Alert motorists students are loading or unloading to improve visibility.

Crossing Arms
Guide students away from the front of the bus so they stay in the driver's line of sight.

Roof-mounted Strobe Lights
Make the bus more visible in low-visibility conditions.

Roof Hatches
Support emergency evacuation and ventilation.

OPERATE WITH CONFIDENCE: IMPROVE ACCOUNTABILITY AND DECISION-MAKING

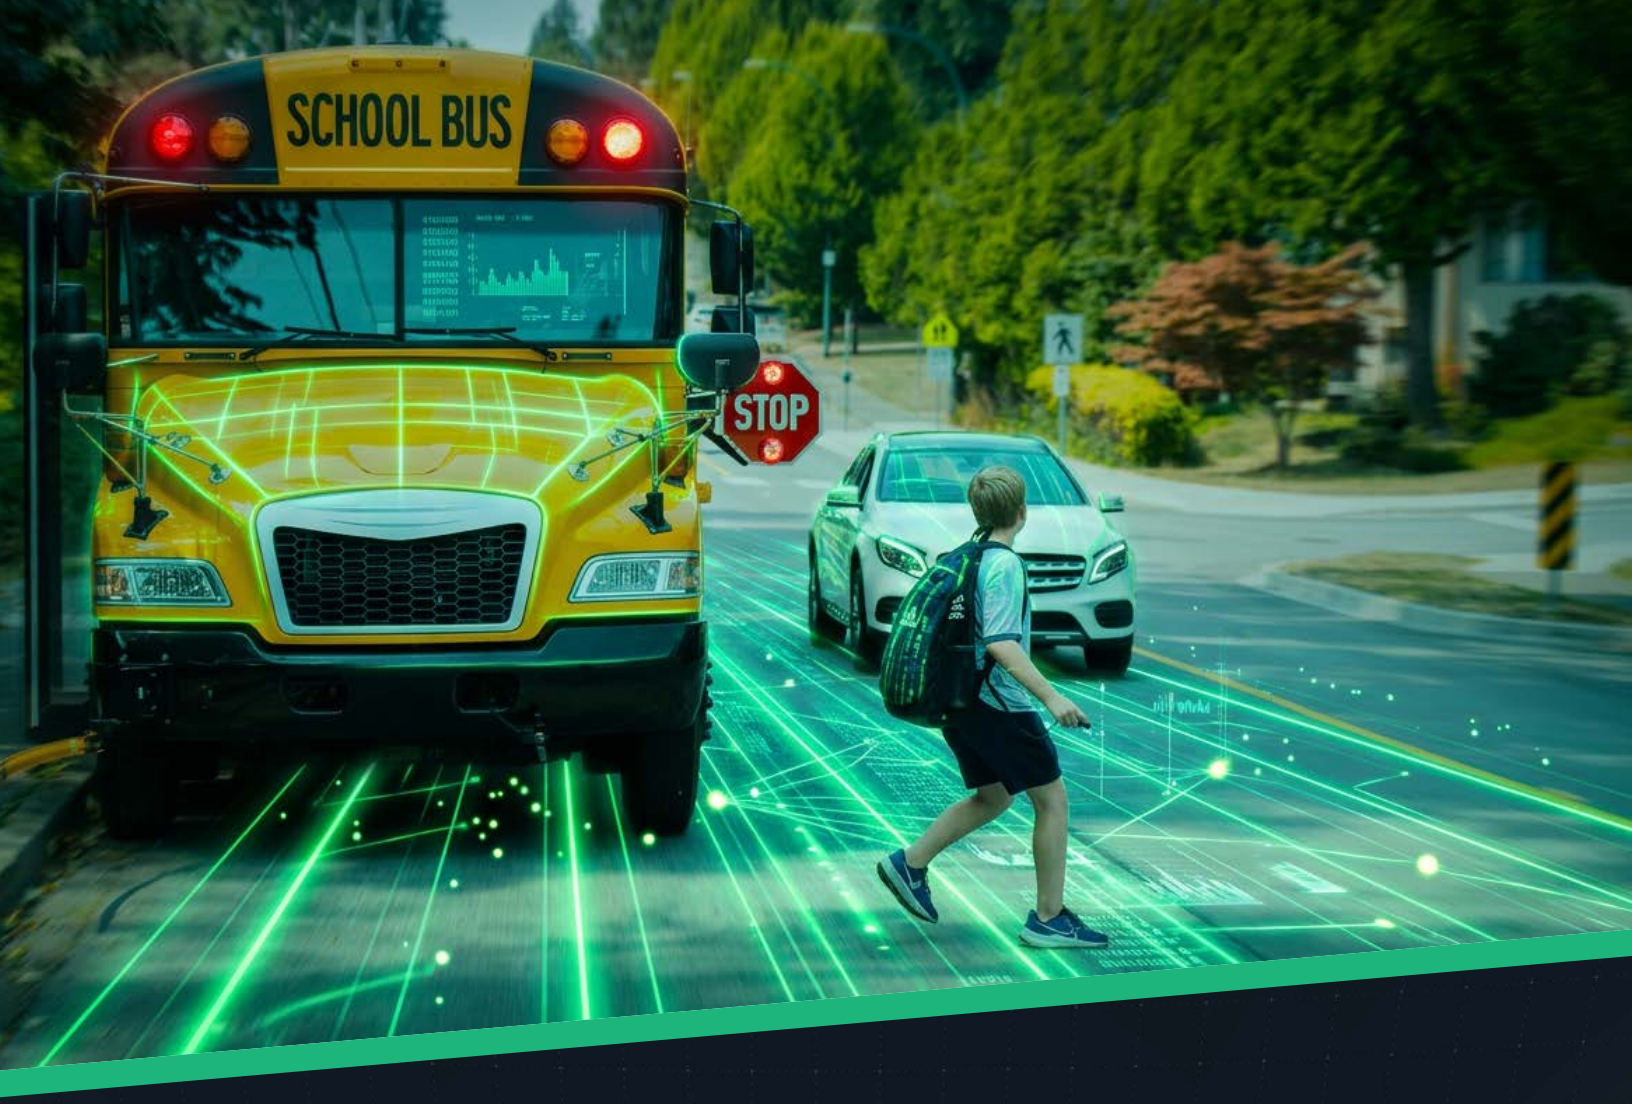

Evidence Management
Find, review and share video evidence from one clear view.

Stop Arm Violation Enforcement
From violation to citation, we deliver court-ready evidence without added burden to schools or law enforcement.

Connected Safety Intelligence
Bring trusted Seon video and Safe Fleet hardware together in one connected ecosystem with Saegic.

AI In Action
AI-powered solutions help school bus operators detect violations, identify critical events, and respond more quickly.
